Summary

Computer Science Junior at the American University of Sharjah with hands-on experience in software development and a solid foundation in team leadership and project coordination. Proficient in **Python, C++ , and Java**, with experience working on projects across multiple domains and development environments.

Demonstrated ability to collaborate effectively in team settings, communicate clearly, and deliver solutions efficiently through practical problem-solving. Highly motivated to continuously learn and apply technical skills to real-world challenges, with a strong interest in developing **scalable, well-structured software solutions**.

Projects

Full-Stack Web Application

AUS

<https://github.com/Ahmed-s-13/meal-planner-website>

09/2025 - 12/2025

Led a **multi-month full-stack web application project**, overseeing ideation, system design, and frontend and backend development. As **team leader**, coordinated responsibilities, guided technical decisions, and ensured effective collaboration throughout the project lifecycle.

Contributed across all development layers, including UI design, backend logic, and system integration. The project **received high academic evaluation**, demonstrating strong execution, technical depth, and effective project management.

Youth Impact Lab 2024 Hackathon

Middlesex University

Pearl Initiative

10/2024

Participated in a 5-hour hackathon as part of a **five-member team**, developing an urban transport concept aligned with **SDG 11**. Proposed **solar-powered transport hubs** built from recycled shipping containers and placed in high-density residential areas to reduce congestion and emissions.

Demonstrated strengths in **rapid ideation, targeted research, team collaboration, and clear technical presentation** under tight time constraints.

Education

American University of Sharjah

2023 - Present

Bachelor of Science in Computer Science (GPA = 3.87)

International Baccalaureate (IB)

2021 - 2023

Attained both IB Diploma and American High School Diploma with a GPA of 4.20

Certifications

Python for Data Science, AI & Development — [IBM \(Issued January 2025\)](#) .

Introduction to Deep Learning & Neural Networks with Keras — [IBM \(Issued January 2026\)](#)

Google Cloud Fundamentals – Core Infrastructure — [Google Cloud \(Issues January 2026\)](#)

Google AI Essentials Specialization — [Google \(Issued January 2026\)](#)

Key Achievements

Chancellor's List Recipient x2

Awarded at AUS, to high achieving students who achieved a **GPA above 3.5** for two consecutive semesters. Received for 2023-2024 and 2024-2025 academic years.

Dean’s List Recipient x5

Awarded at AUS, to students who score a **GPA of 3.5 or higher** for any given semester. Received the award five times from Fall 2023-Fall 2025.

IEEE-Eta Kappa Nu Honor Society

IEEE-Eta Kappa Nu is an international society of **distinguished** electrical engineering, computer engineering, and computer science students.

Skills

Object-Oriented Programming • Data Science • Software Development • Machine Learning • Full-Stack Development • Project Management

Neural Networks • Keras • C++ • Python • JavaScript • Java • SQL • Microsoft Office • Public Speaking • Team Leadership • Design Thinking
